# Technology Transfer Office

## About Us

KIIT TBI Technology Transfer Office (KIIT TBI TTO) is one of the seven TTOs established in the country under the National Biopharma Mission, Department of Biotechnology. The TTO was functional from the year 2021. It is first of its kind to cater to the needs of the innovators, researchers and startups under the industry-academia collaboration. We invite innovators, academic institutions, start-ups and industry to connect with us to translate their research into reality.

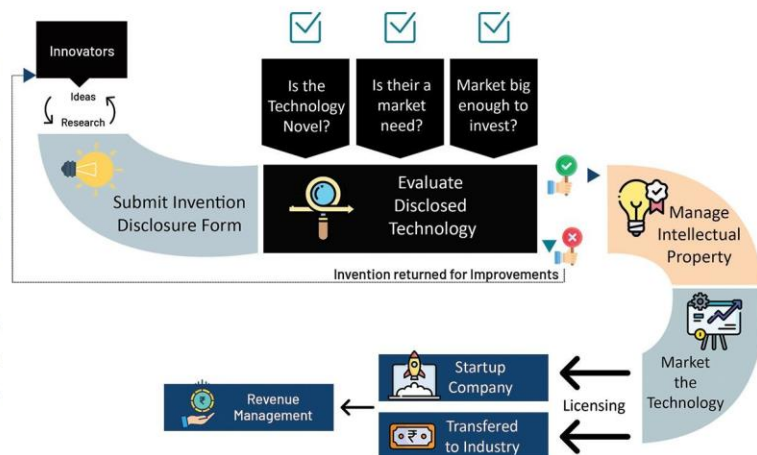

KIIT TBI TTO office functions collaboratively with industry and the innovators to take the indigenous technologies forward from the East and the North East regions of India with a vision to improve the lives of people and boosting local and national economy.

## How we help

We work with you to understand your research, idea and or innovation, and your goals. We can help you:
