# BIRAC REGIONAL TECHNO ENTREPRENEURSHIP CENTRE (KIIT TBI BRTC)

## FOR EAST & NORTH EAST REGION

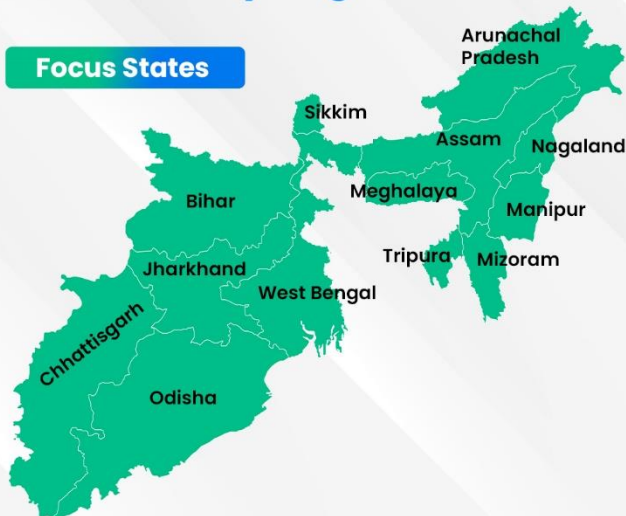

BIRAC KIIT-TBI BRTC is one of the BIRAC's BioNEST Regional Centres at KIIT TBI named BIRAC Regional Techno Entrepreneurship Centre was set up in the year 2019 with tremendous support from BIRAC, the Government of India for building the East & North East Region BioNEST Cluster.

The vision was to develop the biotech entrepreneurial ecosystem in E&NER by nurturing startups, mobilizing resources, augmenting cross-talk among startups from NE & outside NE region, and working together synergistically with institutes, startups, academia, and incubators to create a vibrant "North East and Eastern Cluster".

To commemorate the 75 years of India's independence in August 2022- "**Azadi Ka Amrit Mahotsav**", the E&NER BioNEST Cluster was launched on May 20<sup>th</sup> 2021 to bring together all the BioNEST supported incubator spread across the East and North east region of India.

To enhance **Interactions**  
To provide **Opportunities**  
for peer-to-peer learnings  
& To **Build Synergies**

## Rural Women Entrepreneurship Training and Cluster Approach

### Cluster Details

- Citrus Family:** Arunachal Pradesh, Meghalaya (Khasi Hills), Nagaland (Wokha District)
- Black Scented Rice:** Manipur (Imphal West, Thoubal, Bishnupur district)
- Ginger Family:** Manipur (Churachandpur District), Meghalaya (West Jaintia Hills)
- Mushroom:** Manipur (Imphal West & Imphal East District), Assam (Kamrup Rural District), Sikkim (North & East District)
- Pineapple:** Meghalaya (West Garo District), Manipur (Thoubal District)
- Bamboo:** Manipur (Jiri & Tamenglong District), Tripura (West Tripura district), Mizoram (Aizawl District)
- Kiwi:** Arunachal (Ziro District)
- Orchid:** Manipur (Ukhrul District), Arunachal Pradesh (West Kameng District)
- Handicraft & Handloom:** Assam (Barpeta), Manipur (Imphal West), Meghalaya (East Khasi)

## BRTC Capacity Building Activities

## Key Stakeholders

## BRTC ROADMAP

- ❖ Continue supporting startups and strengthening the necessary innovation ecosystem across E&NER
- ❖ Develop one platform connecting all North East startups across states and focused sectors.
- ❖ Supporting government-recognized local cluster industries with Biotechnological interventions
- ❖ Setting up necessary linkages between local institutes for tech development and industries for tech licensing.
- ❖ Accelerating the cross-talks among startups across inter-state, and intra-state both within and outside NE
- ❖ Support in Establishing Incubators/Entrepreneurship Cells in academic institutions

## Primary Healthtech Pvt Ltd

Founder: Sahil Jagnani

Sector: Medtech Device  
Current TRL: 9

Patent Details: Portable Cuvette based Reagent Mixer (Application No – 202131038898)

Portable low powered optical system for colorimetric analysis and characterization (Application no – 202231004664)

## Title

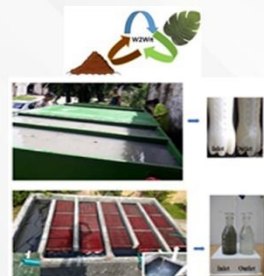

**Mobilab - Affordable IOT Enabled Smart Multi Diagnostic device for chronic diseases detection**

## Application

The device can be used as a point of use device for Kidney Function Tests, Liver Function Tests, Heart Function tests, and Pancreatic Function Tests

**Funds Raised: INR 1.58 CR**

**Funded by: BIRAC BIG, BIRAC SEED, Pontaq Venture & STPI, MeITy SASACT, Villgro**

## Waste to Wealth Innovative Pvt Ltd

Founder: Dr. Shaon Ray Choudhuri

Sector: Industrial Biotechnology  
Current TRL: 8

Patent Details: Bio-fertilizer production from bacterial consortium (Application No: 201731003023)

Microbial consortium and process for degumming of Ramie fiber (Application No: 201931048663)

## Title

**Microbial consortium based biofertilizer for increased Ramie Fiber yield**

## Application

The innovative process can be deployed as a part of effluent treatment process in various industrial ETPs like – dairy ETPs, fertilizer ETPs, etc.

**Funds Raised: Upto INR 1 CR**

**Funded by: BIRAC BIG & MSME Startup Fund**

## Inochi Care Pvt Ltd

Founder: Shivani Gupta

Sector: Medtech Device  
Current TRL: 7

Patent Details: A wound dressing for combined negative pressure and fluid delivery system (App No: 202011056144, Indian Patent)

## Title

**A frugal multi therapeutic wound care solution for resource constraint healthcare settings**

## Application

The device can be used for venous leg ulcers, ischemic wounds, diabetic foot ulcers, pressure wounds, traumatic wounds, post surgical wounds and burns.

**Funds Raised: INR 53 L**

**Funded by: BIRAC BIG, DST NIDHI Prayas**

## Green Biotech Ecosolutions Pvt Ltd

Founder: Ms. Geetashori Yumnam & Dr. Asem Sundari

Sector: Agriculture  
Current TRL: 3

Patent Details: Filling under Progress

## Title

**Industry Scale Development of Probiotic Formulation for Livestock's Management**

## Application

Probiotic formulation that can improve animal gut health, growth rate, feed efficiency and food safety. The probiotics also helps to increase the resistance or immune system of animal/ poultry from diseases thus lowers regular requirements of antibiotics, medicines

## Upstream Processing

- Eppendorf BioFlo/CelliGen 115 Bioreactor 7.5 Litre And 14.0 Litre
- Sophisticated RPC (Reactor Process Controller) software controls up to 32 process parameters
- Suitable to a wide variety of cells for production of biotechnology products.
- It is routinely use for biopharmaceutical upstream processing.

## Cell Culture Facility

- A dedicated and access controlled cell culture facility is available for cell culture.
- NuAire Biosafety cabinet
- ZEISS Primovert Inverted Microscope
- Eppendorf Galaxy 170 R CO2 incubators
- Eppendorf 5804 swinging bucket centrifuge

## Downstream Processing

- AKTA Pure: Protein Purification System
- unicorn software for automated process control
- Compatible to wide range of prepacked column
- Suitable for affinity, ion-exchange, size exclusion chromatography

## Central Instrumentation Facility

- A multifaceted laboratories for biotechnology research, innovation & product development

- Agilent 7010B Triple Quadrupole GC/MS System 8890, 7010 B GC/TQ
- GC-MS is used to analyze samples such as metabolites, pesticides, pollutants, steroids from various sample sources

## GC/MSD:

- Agilent GC FID With MS Detector 7890 B, 5977 B
- Retention Time Locking (RTL) maintains exact retention times from injection to injection
- Routine analysis of samples from various industries such as chemical, environmental, food, forensic, pharmaceutical

## LC/MS:

- Agilent 6530 Q-TOF LC/MS System
- Agilent 6420 Triple Quadrupole LC/MS System
- Quantitative and Qualitative analysis
- LC-MS is used to analyze a wide variety of samples from various sectors

## About us

KIIT TBI Technology Transfer office (KIIT-TBI) is one of the seven Regional Technology Transfer Office (RTTO) established in the country by BIRAC, Department of Biotechnology, GOI. The TTO was functional from the year 2020. It is first of its kind to cater to the needs of the innovators, researchers and startups under the industry-academia collaboration in the East and North-East of India. We invite innovators, academic institutions, start-ups and industry to connect with us to translate their research into reality. KIIT-TBI TTO office functions collaboratively with industry and the innovators to take the indigenous technologies forward from the East and the North East regions of India with a vision to improve the lives of people and boosting local and national economy.

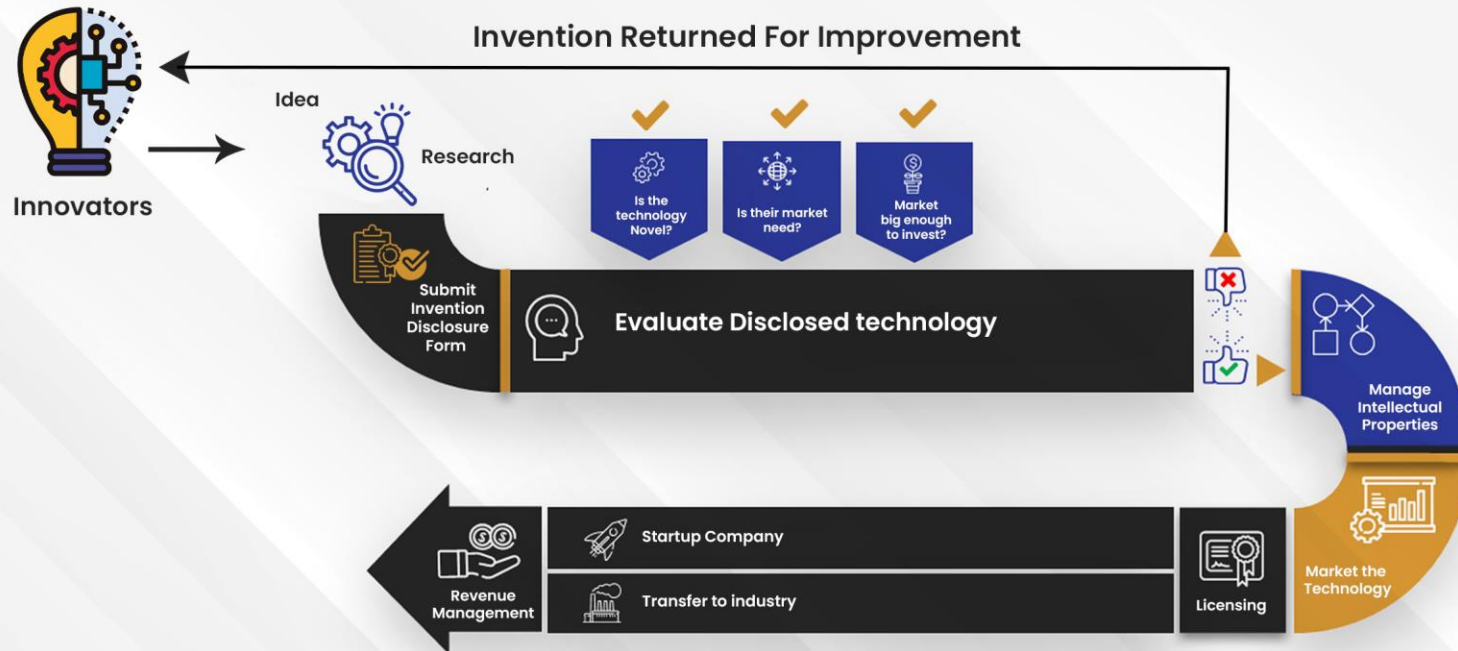

## Services

- Bringing in Disruptive Technologies from academic research
- Transfer of know how in the shape of patent
- Prepare FTO clearance report
- Assessing the commercial potential of inventions
- Marketing technologies to potential licensees and partners
- Negotiate IP & TT agreements, Sponsored Research Contracts, Non-Disclosure Agreements, Material Transfer Agreements, Option Agreements.
- Post contract license agreement monitoring
- Securing patent and intellectual property rights
- Sponsored Research Projects - Problem Statement from the Industry
- Securing funding for research and start-up
